Project Report

MNG Airlines

Destruction and recycling of the confidential document within the scope of secure destruction

Founded in February 1996, MNG Airlines has achieved a reputable and leading position in the sector with its growing fleet over the years and its "personalized service" philosophy that focuses on quality, trust and unconditional customer satisfaction.

Project Information

MNG Airlines has periodically carried out the separation, collection, disposal and recycling of the wastes generated as a result of its activities in accordance with the regulations with REISSWOLF Turkey within the scope of Archive Destruction and Digital Destruction Service.

We would like to thank MNG Airlines for choosing us as a solution partner in order to establish, develop and maintain the sustainability approach and Environmental Management System.

- 50,200 KG Archive Destruction was recycled in 2021.
- Digital Destruction destroyed by environmentally friendly methods in 2021.
- 2173 KG Archive Destruction recycled in 2022.
- 156,910 kg of trees were recycled into nature.
- 1,660,231 tonnes of water saved.
- 341,908 kg carbon foot print reduced.

Evaluation

For a sustainable future, we attach great importance to waste management in all areas and facilities where we operate. Archive destruction and digital destruction services enable us to reduce our carbon footprint with recycled waste. With the awareness that we only have one world, we will continue to implement our GoGreen strategy and continuously improve our processes.

Fatih Güler
Head of Quality and Safety

We would like to thank MNG Airlines for choosing us as a solution partner in order to establish, develop and maintaining the sustainability approach and Environmental Management System.
